

P.I.C. Reduced VOC Welding Adhesive

- Description:** P.I.C. Reduced VOC Welding Adhesive is used as a component for bonding P.I.C. sheeting, jackets, and fitting covers.
- VOC Content:** White 315 grams/liter
Clear 348 grams/liter
- Weight:** 923 grams/liter
- Application:** Use in P.I.C. Applicator dispenser or approved hand pump oiler. Thin only as necessary with P.I.C. welding thinner. (Refer to application instructions in brochure).
- Limitations:** To avoid excessive evaporation of adhesive, do not apply with brush. Do not use as a filler in gaps or joints as adhesive will soften PVC. Apply between 40 degrees F and 100 degrees F. Below 40 degrees F allow longer set-up time.
- Coverage:** One gallon per 500 lineal feet of jacketing.
- Caution:** Extremely flammable. Keep away from heat, sparks, and open flame. Avoid prolonged contact with skin and breathing of vapor and spray mist. Do not take internally. Close container after each use. Keep out of reach of children. For industrial use only.
- Clean Up:** P.I.C. thinner can be used for clean up and for removal of adhesive from applicator guns.

For additional information, refer to labels on P.I.C. welding adhesive and welding adhesive thinner containers. Also, refer to MSDS.
